

# 33 cm Band Plan

915-916 MHz		Repeater inputs - 915.5 to 916 MHz (allocation below 915.5 MHz not recommended)
916-917 MHz		Point-to-point links
917-925 MHz		Amateur television - analog and digital
925-926 MHz		Standard 1 MHz narrowband segment - including beacons 925.250 to 925.300 MHz and legacy national FM simplex of 925.5 MHz
926-927 MHz		Point-to-point links (TDD and FDD)
927-928 MHz		Repeater outputs - 927.5 to 928 MHz

**Note: the standard 1 MHz narrowband segment includes:**

- National SSB calling 925.2 MHz
- Beacons 925.250 to 925.300 MHz
- Legacy national FM simplex 925.5 MHz
- NBFM simplex 925.55 MHz with 123 Hz CTCSS recommended
- P25 simplex 925.6 MHz with NAC 293
- DSTAR simplex 925.7 MHz
- DMR simplex 925.8 MHz with TS1, CC1, and TG99

**The EIRP for this band is 14 dBW (25 W)**
